

FARM TOURS

at Stone View Farm

Educational Farm Tours

Stone View Farm is excited to offer educational tours for individuals of all ages and varying abilities. We welcome visitors to participate in a truly memorable agricultural experience, which includes pick-your-own fields, animal encounters, educational hayride, and much more! Great for youth groups, sports teams, corporate retreats, and adult day programs.

Spring 2025

Our Spring tours offer a unique opportunity for visitors to interact with our friendly mini cows, goats, chickens, pigs, and peacocks! Guests will also take an educational hayride around the farm, with stops to learn about the various crops as well as a tour of our fully operational Spring House! We encourage groups to pack a picnic lunch and spend some time enjoying the views and time outdoors.

Summer 2025

Our summer tours offer animal interactions, an educational hayride, and blueberry picking! Our summer tours will have a particular focus on the growth of blueberries and will end with an opportunity for participants to harvest blueberries from any of our 1100 blueberry bushes!
